## PROJECT DATA SHEET

### Organisation:

New Zealand Heavy Haulage Association  
(Incorporated)

### Scope:

A formal relationship has been established between GCS and the New Zealand Heavy Haulage Association (Inc.) in relation to a restraint system developed in close association with Canterbury Metal Solutions to anchor buildings that will be lifted for foundation replacement

### Type of Contract:

Formalised relationship

### General Comments:

The Association represents the interests of 35 house moving member companies who undertake the lifting and relocation of buildings throughout New Zealand

The Relationship acknowledges GCS as the preferred supplier of a safe, engineered restraint system

### Screw Pile Design and Manufacture:

Canterbury Metal Solutions (CMS)
